Containers and closures? It doesn't matter, we can do all of them!

Bottle unscramblers, filling machines and capping machines. Together with the necessary conveyor technology we can do complete packaging lines for your production.

BREITNER Linear Combimachine

Continuous operation and large dosing range with flow measurement, the Combimachine can be combined with a linear intermittent capping machine or an intermittent rotary capping machine. Can be configured with numerous options for different products and their properties. Ideal for small production areas.
